7-03.1-12-15	Pesticides and Adulterants [Repealed]
7-03.1-12-16	Milk Quality [Repealed]
7-03.1-12-17	Inspection and Enforcement Procedures - Farm Inspection [Repealed]

7-03.1-12-01. Abnormal milk. Repealed effective April 1, 1993.

7-03.1-12-01.1. Requirements for farms producing grade A raw milk.

All farms producing grade A milk shall meet the requirements of the "grade a pasteurized milk ordinance 1989 revision" United States department of health, food and drug administration, and all updates.

1. All grade A farms in violation of equipment cleaning, drug violations, cooling, or other serious public health concerns will be reinspected not before three days but before twenty-one days.
2. Denial of access to a grade A farm for the purpose of an IMS survey, or federal check rating will result in immediate downgrade of the facility. The facility must be reinspected as a manufacturing grade farm within thirty days.
3. Denial of access for a farm inspection will result in loss of market.
4. Construction to repair or upgrade a pit well will require elimination of pit and bringing the well into compliance with the board of water well contractors guidelines.
5. Whenever a farm has been downgraded two times within two years for either inspection violations, milk quality or both, a farm must be off

the grade A market for at least sixty days and must meet all grade A requirements for reinstatement.

6. Farms that score less than eighty-five after an IMS survey or federal check rating, must be reinspected within thirty days after survey.
7. All bulk tanks must have an accurate working thermometer.
8. Farms with three repeat violations of the same inspection line item, or that score seventy-five or below, must be downgraded to manufacturing grade certification. The inspector shall notify the dairy commissioner, the milk plant, the milk hauler, and the producer of the status change.
9. Wash and rinse vats must be stainless steel.
10. Light fixtures may not be directly above bulk tank.

History: Effective April 1, 1993.

General Authority: NDCC 4-29-03, 4-29-04, 4-30-55.1

Law Implemented: NDCC 4-30-36

7-03.1-12-02. Milking and cow area. Repealed effective April 1, 1993.

7-03.1-12-03. Milkhouse or milkroom. Repealed effective April 1, 1993.

7-03.1-12-04. Toilet. Repealed effective April 1, 1993.

7-03.1-12-05. Water supply. Repealed effective April 1, 1993.

7-03.1-12-06. Utensils and equipment. Repealed effective April 1, 1993.

7-03.1-12-07. Milking. Repealed effective April 1, 1993.

7-03.1-12-08. Miscellaneous equipment. Repealed effective April 1, 1993.

7-03.1-12-09. Protection from contamination. Repealed effective April 1, 1993.
